16 FRIDAY

UNIVERSITY LECTURE SERIES/E-A 144.

12.30 p.m. Professor Lester A. Kirkendall, School of Home Economics, Oregon State University, speaks on "The New Morality".

7.45 p.m. HOCKEY: Vikings vs Tudors/Esquimalt.

8.00 p.m. BRIDGE CLUB/Faculty Club.

8.30 p.m. POETRY RECITAL/E-A 144. Barbara Jefford and John Turner, The Labours of Love. \$1.50, 75¢ for students. (See other side.)

20 TUESDAY

12.30 p.m. POETRY RECITAL/E-A 144. Barbara Jefford and John Turner, The Labours of Love. Free.

12.40 p.m. FACULTY ASSOCIATION meeting/ELL 168.

7.00 p.m. BIOCHEMISTRY SEMINAR/ELL 402. Dr. Lyle Robertson speaks on "Uses of Radiation from Medium Energy Accelerations".

24 SATURDAY

9.30 a.m. WOMEN'S VOLLEYBALL: Invitational tournament/gymnasium.

2.30 p.m. RUGBY: Vikings in semi-finals of Victoria Rugby Union/Gordon Head.

28 WEDNESDAY

12.45 p.m. THEATRE OF IMPROVISATION/Workshop Theatre. Free.

17 SATURDAY

2.00 p.m. WOMEN'S FIELD HOCKEY: U.Vic. A vs Mariners B/Lansdowne.

21 WEDNESDAY

12.45 p.m. THEATRE OF IMPROVISATION/Workshop Theatre. Free.

3.30 p.m. LINGUISTICS SEMINAR/Hut N, room 5. Dr. T. R. Hofmann, Quebec linguist, leads discussion on "Directions in Transformational Theory in Grammar," and on machine translation.

7.30 p.m. LINGUISTICS LECTURE/E-A 107. Dr. Hofmann speaks on subjects related to above.

25 SUNDAY

29 THURSDAY

18 SUNDAY

2.00 p.m. WOMEN'S FIELD HOCKEY: U.Vic. A vs U.B.C./Gordon Head.

22 THURSDAY

26 MONDAY

4.30 p.m. CHEMISTRY SEMINAR/ELL 160. M. C. Banks speaks on "Saussureasterol - Its Structure, Absolute Configuration and Biogenetic Origin".

8.00 p.m. ARTS & CRAFTS LECTURE SERIES/SS 108. Professor David Gebhard, Director of the Art Gallery, University of California, Santa Barbara, speaks on Charles Purcell and George Elmslie.

19 MONDAY

4.00 p.m. BOARD OF GOVERNORS meeting/E-A 341.

4.30 p.m. CHEMISTRY SEMINAR/ELL 160. Dr. J.C. Bailar, Jr., University of Illinois, speaks on "Some Researches on the Borderline between Organic and Inorganic Chemistry".

8.15 p.m. LECTURE -- University Extension Series/ELL 168. Dr. Edgar S. Efrat speaks on "Tensions in the Middle East: Behind the Headlines".

23 FRIDAY

4.00 p.m. MATHEMATICS COLLOQUIUM/E-A 541. Dr. R. Schaufele, York University, speaks on "A uniqueness equation for a class of recurrent semi-Markov processes".

9.15 p.m. HOCKEY: Vikings vs Stockers/Esquimalt.

27 TUESDAY

12.30 p.m. PHILOSOPHY SEMINAR/SS 112. Professor A.J. Baker, University of Waikato, New Zealand, speaks on "The Concept of Ideology".

12.30 p.m. CONCERT/E-A 144. An informal program of chamber music by faculty and students.

7.00 p.m. BIOCHEMISTRY SEMINAR/ELL 402. S. S. Aujla speaks on "Inborn Errors of Metabolism"; Wayne Buckley speaks on "Medicinal Plants".

COVER:

There's nothing as smooth as silk-screening, as PROFESSOR WILFRID JOHNS proves by example in a faculty of education studio. The future teacher seems less confident in the poster process.

Campus Events

A new display, "British Columbia's Green Giants," is now open for viewing in the geography department's display room (132) in the social sciences building. The material, on the province's forest industries, was arranged by JOHN BRYANT. Visitors might like to turn their weather eye on the Canadian Weatherfax System receiver next door in room 134, where diagrams on conditions across the continent are printed electronically. Most of the maps are beamed from Montreal, where McGill University is also plugged in to the system. The University of Alberta is the only other Canadian university that's wired for weather. Both display rooms here feature sight-and-sound booths giving automatic slide showings on geographical subjects. Ready at the press of a button are programs on Mainland China, the Pacific Islands, and desert landscapes.

For John Turner and Barbara Jefford, The Labours of Love is a labour of love. Their poetry recital on February 17 and 20 will present some aspects of courtship and marriage, as seen through the eyes of British dramatists from Shakespeare to Christopher Fry. Both participants are well known for their work on the British stage, and with international touring companies. Miss Jefford (Mrs. Turner in private life) won instant fame in a new medium with her portrayal of Molly Bloom in the recent film version of James Joyce's Ulysses. Tickets for a recital at 8.30 p.m. Friday, February 16, are 75 cents for students and \$1.50 for others. The second performance -- at 12.30 p.m. February 20 -- is free. Both will be given in the Education-Arts lecture theatre.

Faculty/Staff News

DR. WINSTON ESHLEMAN (education) will present a research paper on programmed instruction next month in Houston, Texas, where the National Education Association's department of audiovisual instruction will hold its annual meeting. The study, based on findings gathered at two junior secondary schools in Tucson, Arizona, compares new teaching techniques with conventional methods in eighth-grade science.

DR. L. P. ROBERTSON (physics) was in Edmonton last week for discussions on TRIUMF (Tri-University Meson Facility), the nuclear accelerator proposed for development by British Columbia's three public Universities. DR. R. M. PEARCE, who is also deeply involved in advanced research for this project, will speak on nuclear physics to faculty and senior students at UBC this Friday.

DR. R. N. O'BRIEN (chemistry) was one of the invited speakers at the Gordon Research Conference on Electrochemistry held last month at Santa Barbara, California. Also in attendance was GORDON TURNER, visiting scholar at the University, who gave an unscheduled talk.

DR. RALPH BALDNER (modern languages) will attend a plenary session of the Modern Language Association of America in New York from March 28 to 30. Dr. Baldner is a member of the index committee, which recommends reference works for MLA sponsorship. There are no other representatives from Canadian universities on the committees taking part (by invitation) in the proceedings.

Faculty/Staff News

Newly elected to the Senate by the Joint Faculties are DR. J. E. MCINERNEY (physics -- to June 1970), DR. J. E. HENDRICKSON (history -- to June 1969), and DR. R. J. POWERS (political science -- to June 1968). There are now 13 representatives elected by the Joint Faculties as a whole; the Universities Act requires that the number equal the total of those named by the Lieutenant-Governor in Council (four), and elected by Convocation (six), the AMS (two), and the Graduate Students' Society (one). Voting within the Faculty of Graduate Studies resulted in the election of DR. H. W. DOSSO (physics).

Registrar RONALD FERRY strikes a seasonal note with a reminder to faculty that the final date for submission of copy for sessional examinations is Friday, March 29. Examinations begin Tuesday, April 16.

The purchasing department's new buyer is RALPH PAUL, former manager of a downtown tape-recorder company. Mr. Paul retired recently as a squadron leader with the RCAF, after serving as commanding officer with Western Command's communications division in Vancouver.

Posters by FRANK EDMONDS (information services) are on display this week at the Canadian Design Centre in Toronto. Included is the poster for the Phoenix Theatre's recent production of The Bacchae, and others that have appeared on campus this year to advertise special speakers.

Faculty/Staff News

DR. J. E. MCINERNEY (biology) will chair a session on "Social Behaviour and Density Interactions" at the Symposium on Salmon and Trout in Streams, to be held at the University of British Columbia from February 22 to 24.

A report on the findings of the benthic research group was presented to the Pacific Northwest Oceanographers Conference this month by DR. D. V. ELLIS (biology). The paper, delivered at the Pacific Science Centre, Seattle, dealt with concentrations of organisms in marine sediments in the Straits of Georgia and adjacent inlets.

DR. FRED COOPERSTOCK (physics) was in Chicago earlier this month to attend meetings of the American Physical Society.

DR. ALAN GOWANS (art and art history) spoke to the annual convention of the Society of Architectural Historians in St. Louis, Mo., at the end of January. His subject was "Architectural symbols of French survival in Quebec: the churches of Thomas Baillairgé (1791-1859)."
